

AssetNow Software License Agreement
Content Management System

Orbital AssetNowä Software Licence Agreement

May 2005 (Revision 6)

Please read this Agreement carefully before completing the installation process, as by completing that process you are bound by the terms of this Agreement.

1. Terms used in this licence

“Documentation” means all promotional material, user manuals, handbooks, maintenance libraries, educational materials and other publications containing product descriptions or specifications relating to the Software (including those in electronic form on any media);

“Licensee” means you;

“Licensed Software” means the Software and the Modified Software;

“Modified Software” means any Software that you or your agents have modified;

“Orbital” means Orbital Limited and its successors and assigns;

“Software” means all AssetNow™ Software and Documentation;

“Customisations” means the customisations specifically described in the Documentation;

2. Acceptance of terms of licence

2.1 By checking the AUTHORIZED and ACCEPT boxes and clicking the CONTINUE button to complete the installation process, or by the Licensee having an agent such as a computer technician do so on its behalf, the Licensee agrees to be bound by the terms of this Agreement.

2.2 This Agreement is a legal contract which sets out the basis on which the Licensee can use the Software. The Licensee must immediately delete and destroy all copies of the Software downloaded, purchased, or acquired if it does agree to the terms of this Agreement.

3. The Software and the operating environment

3.1 The Software is a Web based information and content management solution and application framework built on Macromedia ColdFusion® software. ColdFusion® software is a software package produced by Macromedia for integrating relational databases and the Web or Intranets and the Internet. ColdFusion® software allows end-users to interact with a database over an intranet or the internet. It operates by using templates that combine HTML and high-level database commands.

3.2 In order to use or operate the Software, the Licensee must first obtain a copy of ColdFusion software, directly from Macromedia Corporation or through one of Macromedia’s partners, under a separate licence agreement.

3.3 Orbital strongly discourages the Licensee from modifying the Software except for the Customisations. Any modifications to the Software are likely to be incompatible with, or not easily upgradeable to, future versions of the Software.

4. Grant of licence

4.1 If the Licensee is licensing the Software for the purpose of designing websites for third parties:

4.1.1 Orbital grants the Licensee a non exclusive licence to

- (a) Make one copy of the Software for backup purposes;
- (b) Modify the Software (excluding the Documentation);
- (c) Incorporate the Licensed Software into other computer programs and hardware in connection with the design and development of content management systems; and
- (d) Display and allow end users to operate and interact with the Licensed Software.

4.1.2 The Licensee shall not:

- (a) Allow end users to otherwise view, use, copy, modify or create further derivative works of the Licensed Software; or

- (b) Use the Licensed Software to produce a product which has the effect of competing with the Licensed Software;
 - (c) Except as expressly authorised by this Agreement, distribute, disclose, copy, alter, modify or in any other way interfere with or reverse engineer the Licensed Software.
 - (d) Use the Licensed Software for any unlawful or illegal purpose or effect.
- 4.2 If the Licensee is licensing the Licensed Software for its own use as the owner of a website for which the Software is being used,:
- 4.2.1 Orbital grants the Licensee a non exclusive licence to use the Licensed Software for the management of the content of its website and to make one copy of the Licensed Software for backup purposes
 - 4.2.2 The Licensee shall not, or permit any employees or third parties, to:
 - (a) Use, copy, modify or create further derivative works of the Licensed Software; or
 - (b) Use the Licensed Software to produce a product which has the effect of competing with the Licensed Software;
 - (c) Except as expressly authorised by this Agreement, distribute, disclose, copy, alter, modify or in any other way interfere with or reverse engineer the Licensed Software.
 - (d) Use the Licensed Software for any unlawful or illegal purpose or effect.
- 4.3 The licence granted by this Agreement is limited to loading and using the Licensed Software on a single Universal Resource Locator (URL) or Internet Protocol (IP) address. The Licensee cannot load or use the Licensed Software on or in any other format.
- 4.4 The licence granted by this Agreement is conditional upon the Licensee separately attaining and maintaining a licence for ColdFusion software from Macromedia. For the avoidance of doubt, the Licensee is not entitled to download, install or use the Software in any manner whatsoever unless the Licensee has a valid licence to use ColdFusion software.

5. Term
- 5.1 This licence shall remain in force until terminated in accordance with clause 11 below.
6. Ownership
- 6.1 The Licensee acknowledges that any Modified Software and content management systems created using the Licensed Software are based on and are derivative works of the Software, and as such are subject to the terms of this Agreement.
- 6.2 The Licensee does not receive or acquire any rights to patents, copyrights, trade secrets, trade marks or any other rights or licenses to the Software beyond the rights and licenses expressly granted in this Agreement.
- 6.3 This Agreement does not authorise the Licensee to use in any manner or medium Orbital's names, logos or trade marks except as required or provided by this Agreement.
- 6.4 AssetNow, AssetNow NX, the AssetNow logo graphic, the "3 click structure", the "simplicity - the competitive advantage" and the Dynamic ARchitecture Technology, DART and DART logographic are trade marks of and copyright to Orbital.
7. Updates and upgrades
- 7.1 The Licensee is entitled to receive minor upgrades at no additional charge.
- 7.2 The Licensee may upgrade to a new version of the Software at no additional charge provided it has a valid maintenance subscription for the Software at the time of upgrade.
8. Warranties
- 8.1 Orbital warrants that the Software will be free from significant defects that prevent the Software from performing substantially in accordance with the Documentation. This warranty:
- (a) Extends for a period of 90 days from the date of purchase; and

- (b) Is conditional upon the Software being installed correctly and used in accordance with the terms of this Agreement.
- 8.2 At Orbital's option, in respect of defective Software to which clause 8.1 above applies, Orbital will:
- (a) Replace the defective Software; or
- (b) Fix significant defects in the Software without charge; or
- (c) Refund the licence fee paid to Orbital by the Licensee;
- provided that the defective item is returned to Orbital within 90 days of the date of purchase. Any replacement Software will be warranted on the same terms as the original warranty for the remainder of the original warranty period or 30 days, whichever is longer.
- 8.3 The remedies set out in clause 8.2 are the sole and exclusive remedies available for breach of express and implied warranties.
- 8.4 The warranties set out above are in lieu of all other warranties, express or implied, including but not limited to any warranty of non-infringement, merchantability or fitness for a particular purpose.
- 8.5 The warranties set out in this Agreement extend to the original Licensee only. No warranties of any kind are provided or extend to any end-users.
- 8.6 The warranties do not cover:
- (a) Damage or defects caused by or related to misuse, accident, negligence or misapplication; or
- (b) Modified Software.
- 8.7 Because programs such as the Software are inherently complex, the Licensee expressly agrees that Orbital does not warrant:
- (a) That the Software is error-free or will operate without interruption; and
- (b) That the Software will work with any given database, network or network application.
- 8.8 The Licensee acknowledges that due to the complexity and nature of the Software, it is possible that use of the Software could lead unintentionally to the loss or corruption of data. The Licensee bears all risk for such loss or corruption; the warranties do not cover any damage or losses resulting from such loss or corruption.
9. Limitation on liability
- 9.1 In no case shall Orbital be liable for any direct, indirect, incidental, special or consequential damages or loss, including, without limitation, lost profits or the inability to use equipment or access data, whether such damages are based upon a breach of express or implied warranties, breach of contract, negligence, strict tort, or any other legal theory. This is true even if Orbital is advised of the possibility of such damages.
- 9.2 In no case will Orbital's liability exceed the amount of the licence fee actually paid by the Licensee to Orbital.
- 9.3 Some territories do not allow the exclusion of implied warranties so clause 9.1 may not apply. In such a case, Orbital's liabilities will be limited by the licence fee as set out in clause 9.2.
10. Indemnity
- 10.1 Licensee indemnifies and holds harmless Orbital from any and all claims, demands, or actions:
- (a) Based on or relating to products or to services offered by Licensee involving the use of the Licensed Software; or
- (b) Based on any representations, statements or omissions made by the Licensee or its agents, or other actions of Licensee or its agents.
11. Termination
- 11.1 Orbital has the right to terminate this Agreement immediately and without notice if:
- (a) The Licensee breaches any term of this Agreement;
- (b) Orbital does not receive full payment from or on behalf of the Licensee.

- 11.2 On termination of this Agreement for whatever reason:
- (a) Clauses 7, 8, 9 and 10 shall survive perpetually;
 - (b) All rights granted to the Licensee will terminate and will revert to Orbital; and
 - (c) The Licensee must delete and destroy all copies of the Licensed Software (including Customisations and Modified Software).
12. Miscellaneous
- 12.1 When creating Modified Software, the Licensee:
- (a) Shall not remove, modify or obscure the copyright statement located in the header source code of the Software; and
 - (b) Shall not make any express or implied claims as to its ownership of any copyright in the Modified Software.
- 12.2 The Licensee shall take all steps necessary to preserve and protect the proprietary and confidential nature of Licensed Software in connection with any proposal, bid or contract between Licensee and any part of any foreign, federal, state or local government, including without limitation the use of effective copyright and trade secret notifications and "restricted rights" or "limited rights" legends on any works licensed or sold or other material submitted by the Licensee in connection with any such proposal, bid, or contract.
- 12.3 The licence granted by this Agreement and the warranties provided in this Agreement are not transferable by or on behalf of the Licensee.
- 12.4 This Agreement is the complete agreement between the Licensee and Orbital concerning the Software, and this Agreement supersedes all prior written and oral agreements. This Agreement may be modified only by a written agreement signed by both Licensee and Orbital.
- 12.5 Orbital will not be deemed to waive any right under this Agreement unless the waiver is in writing and is signed on behalf of Orbital by an authorised signatory. Any such waiver will not constitute a waiver in any subsequent or continuing right or of any other provision in this Agreement. A failure to exercise or delay in exercising any right under this Agreement will not operate as a waiver of that right.
- 12.6 Any unlawful or voidable provision in this Agreement shall be read down so as to be valid and enforceable, or if it cannot be read down, will be severed from this Agreement without affecting the validity, legality, or enforceability of the remaining provisions, provided such reading down or severing does not materially affect the purpose of or frustrates this Agreement.
- 12.7 This Agreement is governed by the laws of New Zealand.
- 12.8 This Agreement is subject to the exclusive jurisdiction of the New Zealand Courts, but Orbital has the right to waive this clause 12.8 on written notice to the Licensee.
